Test

Fuel-cell sensor provides professional-grade accuracy.

Internal air pump ensures precise, consistent results every time.

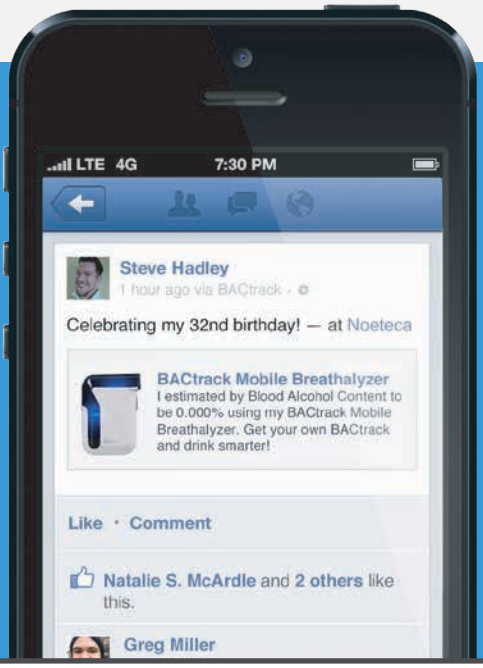

Track

See your BAC rise and fall over time.

- View results from the last 6 hours to the last 14 days and beyond.
- Track what you drank and where.

Learn

- Gain insight into your drinking habits and learn how your body processes alcohol.
- With ZeroLine(tm), estimate when your BAC will return to 0.00%.
- Your BAC results remain private, or chose to share them via text message, Facebook, or Twitter.
