Some features of our alcohol detectors to help you choose the one that suits you best

1 ▶ **APC-80 Elite.** Adevice with an electrochemical sensor and which presents the same technology as that used by the police. It offers a test counter and keeps in memory the last 5. Its screen turns red and is accompanied by an audible alarm when the rate is above 0.05. It offers a display of 3decimal places. It also has a low battery indicator and a carrying case.

2 ▶ **APC-90.** Our most popular model. It has been recognized as the most reliable device by amagazine similar to Protégez-vous in Sweden. It has a "premium" sensor of the highest quality, similar to those sold to police officers. It has a test counter and remembers the last 5tests. It has a 3 decimal place display and comes with 5mouthpieces and a carrying case. In addition, it has a low battery indicator, an automatic audible alarm when the measurement is above 0.05% and a cigarette lighter socket in case your battery is flat. Excellent value for money.

3 ▶ **BACtrack Trace.** A detector with an electrochemical sensor with an Xtend platinum® fuel cell of the same type as those found in police devices. It is easy to carry around since it is small in size. It is also easy to use because it works with a simple button! It keeps track of your last 10 tests for later reference.

4 ▶ **Alco Supreme.** An alcohol detector with electrochemical sensor to make your phone even smarter! It connects via Bluetooth to phones Android smartphones and tablets with versions 4.3 and later, as well as Apple devices with versions 4S, iOS 7and later. It offers several attractive visual displays that allow you to use the detector properly and interpret the results. The application allows, among other things, sending your result by text message, Facebook or Twitter. It gives you an estimate of the time required to return to astate of sobriety. It stores the last 500 tests.

5 ▶ **AlcoMate Premium AL7000.** One of the most accurate and convenient breathalyzers available on the market. The AlcoMate Premium AL7000 never requires calibration thanks to the technology used in PRISM patent pending TM(pre-calibrated replaceable smart sensor module). Its unique sensor is easy to replace and takes only seconds!

6 ▶ **Cobra 600** The breathalyzer is certified by the FDA (Food and Drug Administration). It has a test counter that stores up to 7500 results. An LED light turns red when the level is above the legal limit and turns green when it is below
